December is always good time to remind you about our winter weather cancellation procedure. Participants should log onto www.wgal.com for all winter weather cancellation information and look for Adult Enrichment. If participants do not have access to the internet they should call Adult Enrichment (397-5600) and listen for a recorded message announcing our closure.

Please join us December 15th. at 12:30 pm at Manor Church for our holiday concert Winter Wonderland. The church is located at 530 Central Manor Road, Lancaster, PA 17603. Enjoy light refreshments with our chorus members following the performance. Participants should arrive as usual to program the day of the concert and should bring **a brown bag lunch**.

Our holiday party will be held on Thursday

December 22. Letters will be sent home the first week of December that must be returned if you are planning on attending the party and want to participate in the gift exchange.

Painting Class

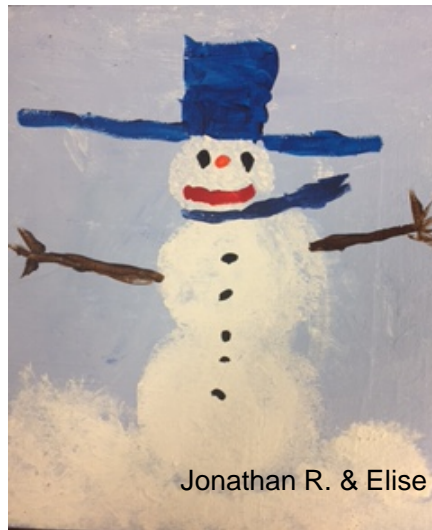

In painting class we've been painting quilt pictures. We started out with water colors and little cards. We painted the cards with different colors; each card was the square in a quilt. We let them dry and then we matched them by how they would look together. We glued them to black paper and our quilt art was done.

In September we each submitted a Christmas painting, a couple of us worked together on our pictures, for the UDS Christmas Cards. The winners were announced at our Halloween party. This year three pictures were chosen, they were 1) a picture of dark purple Christmas trees painted by Steph and Darla, 2) a snowman painted by Jon R and Elise, and 3) a Christmas fireplace painted by Jon W. Each of the winners received a pack of Christmas cards with their pictures on the front. Packs of cards are available at AE for \$10.00. **See Beth Minnich if you wish to purchase a pack.**

We've also started a class project, a tree mural of the four seasons. We painted all the backgrounds, using all different colors. The class was divided into four groups, each group working on a season. Two groups worked on our quilt while two groups worked on our mural, then we switched. Two of the groups finished painting their trees, they were winter and fall. We think they look good and are really nice. We're not even done and people have asked about purchasing them. They should be done the end of November or the beginning of December.

Health & Beauty 

We learned that part of being healthy and beautiful is taking care of ourselves. In taking care of ourselves we discussed taking showers/baths, wearing clean clothes, hair care, practicing good oral hygiene and healthy eating. In class we made an example of a healthy snack with celery, peanut butter and raisins. This snack is known to many as ants on a log. In future classes we are looking forward to learning the benefits of fruit and vegetables have on our body and smoothie making.

We made moisturizing hand sanitizer using essential oils, Vitamin E, and sanitizer. We made a facial scrub out of honey and sugar and room deodorizers\air fresheners just to name a few. One of our favorite things was getting a manicure. Our hands were soaked in soapy water, had our nails cleaned, filed, trimmed, cuticles pushed back and hands massaged.

The best thing we could do for our bodies is to get plenty of rest , exercise, and eat well.

November Outing

Contributed By Sam

We went to Olive Garden. We got our food, which was never ending pasta, ravioli, spaghetti with meatballs and without meatballs, shrimp scampi, fried chicken ravioli and spaghetti carbonara. We chatted while they brought the food. We didn't get dessert because we didn't have enough time or money. We left a tip for our servers Samantha and Sarah, they were very good. they took good care of us. Their Italian food was great and the outing was good.

Spiders

In Science class we learned about spiders. We made a large spider out of paper mache', balloons and straws. We painted it black.

In Social Club we made a spider egg sac craft. We blew up small balloons and tied them. We dipped yarn in a water and glue mixture. Then we wrapped the wet yarn around a balloon. After they dried they were hung on a line and we chose a plastic spider to glue on to the sac.

Did you know...?

Spiders have two body segments.

The front part

The front part has the eyes, mouth, fangs, stomach, brain and the poison glands.

Most spiders have eight eyes.

Spiders have 'pedipalps' beside their fangs to hold onto their prey so they can bite it.

The eight legs are connected to the front part.

Hairs on spiders' legs pick up vibrations and smells from the air.

Spiders have 48 knees. (8 legs x 6 knees = 48 knees)

The back part

The second segment of a spider's body is the abdomen.

The back of the abdomen is where the silk-producing spinnerets are.

All spiders produce silk. Not all spiders spin webs

The spider's body has an oil on it to keep it from sticking to

its own web. Spiders have a hard outer shell called an 'exoskeleton'. Young spiders molt, or shed their exoskeleton as they outgrow it. Male spiders are usually smaller than female spiders.

Spiders are interesting to learn about.....from a distance!

Let it snow, Let it snow, Let it snow!....Who likes snow?

Darla and Elise: "Snow is pretty."

Crystal: "I hate snow. I don't like the cold weather because we can't go anywhere. I like to drink hot tea when it snows."

Kathy: "I like snow. Sometimes I help out shoveling outside. But if it gets bad enough we go to Florida."

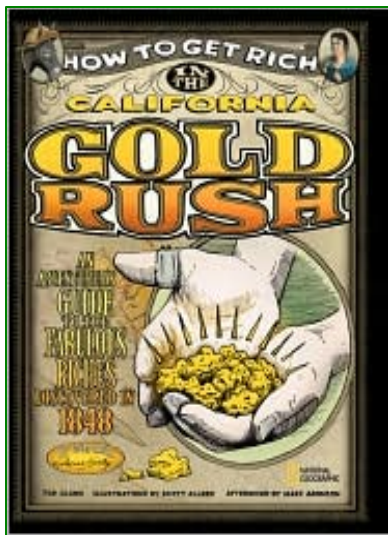

Trista: "I like snow for Christmas."

Steph: "I do not like snow. It is cold and I do not like to drive in it, because we get into major accidents. Our road closes when it snows."

Derek: "I like snow a lot."

Mary Jane: "I think snow is so-so. It is too messy."

Jayln: "I like to shovel snow."

HISTORY CLASS

In history class we watched a video on how to pan for gold. We watched the video so we could learn how they panned for gold. They would take a medium sized pan with dirt and rocks and swirl it around in the water till the dust and the rocks are gone. The gold is heavier and will stay on the bottom of the pan. They were really small pieces left in the guys pan. We learned about the California gold rush. They went out west to California in wagons or they could go by ship to San Francisco. Not many people struck it rich. Some got hung for stealing other peoples gold or for murder. It wasn't easy. None of us want to look for gold unless we are guaranteed to find it.

Acting with Mother Goose

We have Acting Class on Monday afternoons. We volunteer to read different parts in the skit of the day. Acting is fun. You can be someone else for a while. We have begun a new series of Mother Goose Rhymes. In preparation we made a hat for Mother Goose. We made it out of paper mache'. We mixed flour and warm water. We dipped strips of newspaper in it. Then we layered the newspaper over an upside-down bowl that was covered in a plastic bag. After it dried, the hat brim was cut in a circle to remove rough edges. Then the rim needed to be wetted again and shaped to come around the head. Will and Judi volunteered to paint

the hat inside and outside. We also had a paper mache' spider made here at AE. first skit we did from Mother Goose was Little Miss Muffet. Ali dressed up as Mother Goose. She wore a long pink dress and a shawl. Ben chose a Brown wig for her. We tied the Mother Goose hat, that we made, on her with a long scarf. It was fun! Ali enjoyed being Mother Goose. Will was in charge of the big, black paper mache' spider. Trista volunteered to be the voice of Mother Goose. Judi was the voice of the smart-alec kid in the skit. It was a humorous skit. We learned that a tuffet is a footstool. And we learned that arachnophobia means being afraid of spiders. We are looking forward to more Mother Goose Skits as well as upcoming holiday skits.

WILDLIFE

In Wildlife, Dareek acts like my assistant. He sits in front with me and when we watch a video he turns off and on the lights. Kate is our Wildlife animal impersonator. She tries to impersonate the sounds of the animals, which we are viewing. It's hilarious. Kate also taught on Polar Bears. Rosie also taught on Panda Bears. Each month I ask them what kind of animals they want to learn about in the coming month. Also, after I teach a little about the animal, we watch

videos about that animal (i.e. Eagle) then take a fun little quiz on the animal. At the end of each month I assist the participants in making pages for our Wildlife book. The participants cut out photos, info, etc. on all four animals that they learned about for the month and glue them onto construction paper and decorate them. The Wildlife book is a great way to see or to remember all of the animals that were covered in the past.

MUSIC APPRECIATION

Music Appreciation is a fun class. We are doing a theme on the 50's 60's and 70's. The Monkeys is one of the bands that we will be learning about. We like learning about different Artist and Music. And we love dancing and singing to the music. Mrs. Tina let's us teach class and choose who we want to teach on. Music is good for the soul.

Note: Trevor I see the rabbit ears you gave me...Thanks
