From the Director's Desk

AE is excited to announce that this year we will be partnering with Gertrude Hawk Chocolates for our annual Easter candy fundraiser! The fundraiser will begin February 6th with all orders needing to be turned in no later than February 27th. Catalogs and order forms will be sent home along with more detailed information regarding this fundraiser. Thank you all for your continued support. It is greatly appreciated!

As the cold weather continues, everyone is encouraged to place their initials on the inside of their coats. This helps staff members ensure that everyone is sent home with the right items and prevents potential mix ups. Thank you for your help with this matter.

~ Jared

GROUNDHOG DAY

Contributed by Newsletter class

February second is known as Groundhog's Day. The ground hog names that we all love are; Octorara Orphie, Punxatawney Phil, and Solanco Sam. Groundhogs are also known as wood chucker's and whistle pigs. The timeless question asked by many is how much wood would a wood chuck if a wood chuck could? The answer is only found on google. Groundhogs are related to the common background squirrel. Groundhogs like to eat soybeans, corn, and young greens. John Whitlock says" they like to eat cockroaches". Farmers don't like them, because they nibble on their crop and dig tunnels through their fields. Groundhogs spend the warmer months waiting to buildup fat to survive the winter months when they are hibernating. If a groundhog see's his shadow there will be six more weeks of winter. If he doesn't see his shadow spring will come early.

AE Participant Takes The Polar Plunge

On Saturday, January 21, 2017, Gary, a participant at AE, joined other brave souls in raising awareness and funds for the Special Olympics by participating in a polar plunge. The event took place from 8am to 12 noon in York County at Gifford Pinchot State Park. Gary's mom had heard about the event on TV and asked him if he wanted to participate. Last year he was unable to, because he had been sick. So this was his first plunge. He wore his bathing suit and a towel. These adventurers were first led in exercise, jogging in place. Then they all held hands to form a line. Together they walked into the icy, 34 degree waters of Lake Pinchot. Gary said they waded in up to their hips. As soon as he got out he dried off and put warm clothes on that he had packed in his suitcase. He said taking the plunge was fun. But his mom told him he was nuts. He invites all friends at AE to join him next year and be on the 6 o'clock news.

ARTS AND CRAFTS CLASS

How to Make Homemade Paper

Supplies for Making Paper

Water

Scrap Papers

Plastic storage tub or vat

Kitchen blender

Mould & Deckle (a screen attached to a frame)

Wood boards OR sponge & rolling pin

Towels, wool blankets, cloth, pellon, Sham-wows, or other absorbent material

STEP 1: CUT UP PAPER

Cut or rip up your paper into about 1 inch squares.

Soak your paper for a few hours or overnight.

Drawing, printmaking, and watercolor papers are best because they are generally made from stronger fibers (cloth rag and not chemically treated tree fiber).

However, experiment with junk mail, office paper, paper grocery bags, the yellow pages, rejection letters, and more. No plastic, people.

Also, experiment with different color combinations.

STEP 2: BLEND IT & MAKE A VAT OF PULP

Fill up a kitchen blender with water. Throw in a good handful or two of the cut up scrap papers (not too much more, or you'll burn the blender motor out). Blend. Keep blending until it's a pulp.

Don't make your smoothies with that blender anymore.

Have a storage tub hanging around? Those concrete mixing vats from the hardware store also work. Fill up the tub with your blended pulp, about 1/3 to 1/2 way. Add more water to the vat. The more pulp to water, the thicker your paper will be.

STEP 3: PULL SOME SHEETS

For this, you'll need a mould and deckle. It's basically a frame with screen.

Now, for sheet formation:

Stir your vat of pulp.

Hold the mould screen side up, and place the deckle evenly on top.

Holding them together at a 45 degree angle, dip the mould and deckle to the bottom of the vat and scoop up, holding the mould and deckle horizontally.

As you lift it out of the slurry, give it a quick shake back and forth, and left to right to align the fibers and make a more uniform sheet. Stop shaking before the sheet is fully drained. Let the water drain to a drip.

*Next Class we going to use it paper to make a Valentine's Day Cards.

Photography Class

Contributed by E-kat

In photography class Amparo showed us pictures from her vacation in Colombia SA. It made me wanna go there. The cities she showed us were Cali and Medellin it was so beautiful; it was like an oasis, the house she showed us has a mountain view. The city has a carline which is like an amusement attraction, but they use it as a public transportation, which is awesome. They have a lot of different kinds of fish and fruits, ones you can't find in America.

Arts & Crafts

In Arts & Crafts we made peppermint candy Christmas ornaments. First we had to take the peppermints out of the wrappers. Next we chose what cookie cutter to use for the shape. After that we put the peppermints in the cookie cutter. It's important not to layer them. Then we baked them to melt the mints so they would be in the same shape as the ornament. Last, we put mod podge on to make them shine and to keep them from getting sticky. We think it's a cool activity.

Eat Ice Cream for Breakfast

On February 4, the first Saturday of the month, it's eat ice cream for breakfast day. It was created in winter because it was cold out and a mother wanted to do something weird for her kids to make winter go faster. We know of one place that celebrates it here in Lancaster County, it's Pineview Dairy in New Danville. We think it's a good idea for breakfast, if you eat breakfast. If we go, we would like vanilla or pistachio or even a key lime pie ice cream. On top we would like nuts, bacon (haha), granola, or even some cold breakfast cereal. A banana split might be good because it has fruit on it. We think there are as many options as people if you want to enjoy ice cream in the morning for breakfast.

JARED

**Questions Asked By:
The Adult Enrichment Group**

1. Are you ready for your new position?

Yes I am.

2. Do you think you'll have new experiences?

Yes, there are lots of new responsibilities I'll be taking on.

3. Do you think you'll meet new people?

Yes, we'll get to add new participants and new staff to the program. I'll also get to work with new people throughout the organization.

4. What will some of your new responsibilities be?

The major responsibility is that now I'm responsible for overseeing the day to day functions of the program and also making sure everyone is having a good time!

5. How do you feel about your new position?

I'm excited and nervous at the same time, but ready to get started.

6. Will you wear a coat and tie in your new position?

Maybe sometimes, but I'll probably still dress the same.

7. Where do you see the program going in the future?

I think on the path it's currently headed by continuing to provide others the opportunity to attend the program.

8. How do you like being in charge?

I don't know yet, but I'll get back to you!

9. What do you personally expect to get out of your new position?

A lot of new professional experiences and being able to serve all the staff and participants in a new way.

The History of Valentine's Day

Researched by Jonathan Whitlock

Valentine's Day, also called **Saint Valentine's Day** or the **Feast of Saint Valentine**, is an annual holiday celebrated on February 14. It originated as a Western Christian liturgical feast day honoring one or more early saints named *Valentinus*, and is recognized as a significant cultural and commercial celebration in many regions around the world, although it is not a public holiday in any country.

Several martyrdom stories associated with the various Valentines that were connected to February 14 were added to later martyrologies, including a popular hagiographical account of Saint Valentine of Rome, which indicated he was imprisoned for performing weddings for soldiers who were forbidden to marry and for ministering to Christians, who were persecuted under the Roman Empire. According to legend, during his imprisonment, Saint Valentine healed the daughter of his jailer, Asterius, and before his execution, he wrote her a letter signed "Your Valentine" as a farewell.

The day first became associated with romantic love within the circle of Geoffrey Chaucer in the 14th century, when the tradition of courtly love flourished. In 18th-century England, it evolved into an occasion in which lovers expressed their love for each other by presenting flowers, offering confectionary, and sending greeting cards (known as "*valentines*"). In Europe, Saint Valentine's Keys are given to lovers "as a romantic symbol and an invitation to unlock the giver's heart", as well as to children, in order to ward off *epilepsy* (called Saint Valentine's Malady). Valentine's Day symbols that are used today include the heart-shaped outline, doves, and the figure of the winged Cupid. Since the 19th century, handwritten valentines have given way to mass-produced greeting cards.

Saint Valentine's Day is an official feast day in the Anglican Communion, as well as in the Lutheran Church. Many parts of the Eastern Orthodox Church also celebrate Saint Valentine's Day, albeit on July 6 and July 30, the former date in honor of the Roman Presbyter Saint Valentine, and the latter date in honor of Hieromartyr Valentine, the Bishop of Interamna.

Alisha will be leaving Adult Enrichment

In two weeks to be a stay-at-home mom. We wish her the best. But we will miss her. We talked with her about what is ahead for her. Here are some of the things she had to say:

My first week home I hope to relax and figure out what my new role will be. I have never been home fulltime before. I do not know what my days will look like, but mostly I plan to spend a lot of quality time with my girls.

Clementine is 6 years old, Sadie is 3 and Mavis is 5 months old. Life is very busy with three children.

Clementine is in kindergarten. She loves it. I hope to join the PTA at her school. Sadie likes to play in her little kitchen and put puzzles together. Mavis is a very sweet, happy baby. Her smiles make up for my lack of sleep.

Clementine and Sadie are good big sisters. Clementine likes to be a "little mommy" to Mavis and Sadie loves to give her hugs and kisses. When I pat Mavis's back to burp her, Sadie will rub her back, too. I hope the girls will be really good friends as they grow up.

I know the days go by quickly. In my free time I want to continue to pursue art, like I used to. I used to work with pottery and I really enjoy creating things. . I hope to get back into reading, too! I have a lot of home improvement projects and plan on painting my bathroom immediately and in the spring start a garden.

My days are pretty hectic while I 'm working. Jonny and I both pick up and drop off the girls at school or daycare. Johnny watches the kids while I make dinner. Then we pack all the lunches and bags for the next day. I give the older girls a bath while Jonny watches the baby. Then we all read books and sing songs before bed. Once I am home fulltime, I will relieve some of what Jonny does and we will be able to do more fun things as a family.

I am going to miss you guys terribly! When you come here to AE, you are surrounded by people all the time. I love being able to talk to all of you each day. The nice thing is that I live close to here. Make sure Jared invites me to events, so I can come.

Lights, Camera, Action Movie Club Take One

Movies are rated by five stars

Here are a few that we recommend:

Secret Life of Pets.....

Fred Claus.....

The Santa Clause....

Jingle all the Way....

We also go to movie outings once a month. Watching movies is a way to step out of our personal world into a world of theatre. Watching movies helps to relieve stress and the popcorn is good too. And that's a wrap!!!

Colors

One Science Class, we talked about colors. The world would be less interesting if everything was only black and white. Most people have a favorite color.

We got to do an experiment with Skittles. Each table received a white plate. We made a circle of Skittles on the plate. Then we poured a thin layer of water on the plate.....and waited. As the water melted the hard candy coating, it formed a color pattern on the plate. The colors kept their boundaries for quite a while before mixing. We also learned about colors from a Bill Nye video. There are three primary colors: Red, Blue and Yellow. We put three drops of each of those colors in three separate cups of water. We poured some Red and Blue together to make Purple. We poured Blue and Yellow together to make Green. And when we mixed some Red and Yellow together, it made Orange.
