## From the Director's Desk:

It is so good to be back at Adult Enrichment! A big thank-you to the staff of AE for all of their hard work and to everyone who sent cards, gifts, food, and well wishes to my family while I was on my leave.

What a winter this has been for snow! I know most of us are counting the days until spring arrives, but just in case winter has another storm in store for us I would like to review our closure procedure. When the determination is made to close program staff and participants are alerted through a phone chain. We ask that all participants, families, and caregivers tune into WGAL and watch for RRTA closings. If RRTA is not running, we will NOT be open and we will only call participants that use alternate transportation.

We are in the process of having Adult Enrichment added to the WGAL closings list, but don't think this will take effect until next snow season. Until then if you are unable to access WGAL please let us know and will continue to call you when we are closed.

Please help support Adult Enrichment by purchasing or selling Wolfgang Easter Candy. All orders are due by 3/7/14 and candy will be available for pick up the week of 4/17/14.

## MARCH BIRTHSTONE

Researched by:

Ben Walker

The two birthstones for March are **aquamarine** and bloodstone.

The name aquamarine is derived from the Latin word aqua, meaning water, and marina, meaning the sea. This gemstone was believed to protect sailors, as well as to guarantee a safe voyage. The serene color of aquamarine is said to cool the temper, allowing the wearer to remain calm and levelheaded. Its pale, cool color beautifully complements spring and summer wardrobes. Aquamarine is most often light in tone and ranges from greenish blue to blue-green; the color usually is more intense in larger stones. This gemstone is mined mainly in Brazil, but also is found in Nigeria, Madagascar, Zambia, Pakistan, and Mozambique.

## BLOODSTONE

Researched By

Ben Walker

The second birthstone for March is *bloodstone*, a dark-green jasper flecked with vivid red spots of iron oxide. This ancient stone was used by the Babylonians to make seals and amulets and was believed to have healing powers — especially for blood disorders. It is sometimes called the *martyr's stone* as legend tells that it was created when drops of Christ's blood stained some jasper at the foot of the cross. Generally found embedded in rocks or in riverbeds as pebbles, primary sources for this stone are India, Brazil, and Australia.

## Daffodil

### Daffodils in History

Daffodils are native to the Mediterranean region, including the Iberian Peninsula, North Africa and the Middle East. The earliest record that included mention of daffodils dates back to around 200 BC.

Although daffodils were a favorite of the ancient Greeks and Romans, by around 1600 they had fallen out of favor and essentially been forgotten. But that changed in 1629 when a group of English gardeners championed the daffodil and it regained its popularity among plant and flower lovers.

#### Colors and Symbolism

The most common color of daffodil is yellow, but you can also find flower varieties accented with Another hidden meaning of daffodils was noted to be "you are an angel."

#### Fun Facts about Daffodils

Daffodils were brought to Britain by the Romans who thought they had healing powers.

Medieval Arabs used the juice of the wild daffodil as a cure for baldness.

Roman soldiers carried poisonous daffodils to help them die more quickly if they were mortally wounded in battle.

A Greek scholar named Theophrastus first wrote about daffodils around 300 BC in his Enquiry into Plants, which became an important influence on medieval science.

The daffodil is the emblem of Wales and is worn on St. David's Day, celebrated every year on March 1.

## Dragon Buffet on January 8, 2014

Contributed by  
Jayann McCue

**AE** went to the Dragon Buffet for lunch. It is located on Fruitville Pike near the Kmart. We rode on Big Green there and back. They had good food; chicken, shrimp, veggies, garlic bread, noodles and more. I went up to get my appetizers and then my lunch. My favorite foods were the chicken, shrimp and garlic bread. I guarantee that if you are looking for a new place to eat, you should try the Dragon Buffet. I think you will like it. I did not try the coconut chicken because there were too many other kinds of food to choose from. We all had fun.

## STRAWBERRY DREAM CAKE

Research By  
Laura Sauder

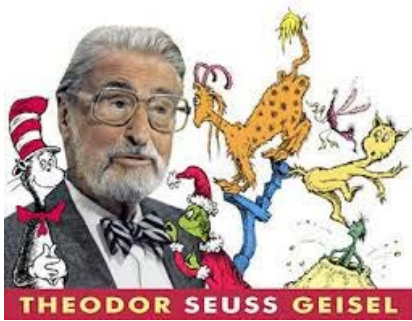

### Ingredients

- 1 (18.25 ounce) package white cake mix
- 1 1/2 cups frozen sweetened strawberries, pureed
- 12 ounces cream cheese
- 8 (1 ounce) squares white chocolate
- 1 cup heavy whipping cream
- 1 (8 ounce) container frozen whipped topping, thawed
- 1/2 pint sliced fresh strawberries

### Directions

Preheat oven to 350 degrees F (175 degrees C). Grease two 9 inch round cake pans. Make cake per directions except substitute the 1 1/2 cups of strawberries for the water and add 1 extra egg, (if cake mix calls for 2 eggs add 3), and 8 ounces of the cream cheese at room temperature. Beat well and pour into the prepared pans. Bake at 350 degrees F (175 degrees C) for about 20 to 25 minutes or until golden brown. A toothpick inserted in the center will not come out clean when this cake is done since it is so moist. Let cake cool fully before frosting.  
To Make Frosting: Heat the heavy cream until just beginning to boil. Pour it over the white chocolate (chopped) and the remaining 4 ounces cream cheese. Mix well and let cool. Once cool fold into the whipped topping. Use to frost cooled cake and garnish with sliced fresh strawberries.

# Dr. Seuss Biography

"If you can see things out of whack, then you can see how things can be in whack." Dr. Seuss

(March 2nd, 1904-September 24th, 1991)

By Jonathan Whitlock

Dr. Seuss' name was 'Theodor,' in 1904  
He was born on March fourth, need I say more?  
His parents, Theo Roberts and Henrietta Seuss,  
Gave birth to a child that saw things screw-loose...

At 18, he went to the college Dartmouth  
Where he worked with a magazine, but was quickly thrown out.  
Then commenced with a love of cartooning and verse  
Writing storybooks, focused on lessons a bit terse

Throughout all the years, he made many a book  
46 tales he told, we should all take a look  
They got lessons on life, that we all can relate  
From losing one's way, to getting a date

Songs are sung, rhymes are rhymed  
ABC's are reviewed, and rhythms are timed  
He's become such a part of our cultural stew,  
That we all face the paradox of 'hearing a who!'

# ST PATRICK'S DAY CHARMS - THE INVENTIONS & HISTORY OF ST PATRICK'S DAY

Research By  
Laura Sauder

For every holiday, there are inventions, trademarks, and copyrights created to serve those celebrating the holiday. St Patrick's Day is no exception, for example the term leprechaun has been used in hundreds of different trademarks. On St Patrick's Day parades are held in many cities where there is a large population of Irish folk. Every green hat, streamer, flag, and other party favors used by merry-makers during the parade was created by an inventive mind. Take a look at few

## History of St Patrick's Day

St Patrick's Day has its origins in ancient times. Patrick lived in the British Isles, a land invaded and conquered first by the Romans and then by Germanic tribes. Patrick was captured and taken as a slave at the age of sixteen.

Legend has it that one night while he was praying, a voice told him to escape and find a ship that was waiting for him two hundred miles away. Patrick got to the ship, sailed to Europe, and disembarked in what is now probably France. He led several of the ship's crew through a dangerous forest, praying all the time. Neither Patrick nor any member of his crew was captured. When some of the men were about to die of starvation, wild animals appeared for them to eat. Events such as these appeared to be miracles and gave rise to later legends surrounding Patrick.

Once home, Patrick felt that he was called by God to perform an important mission. He believed it was his duty to go back to Ireland and convert the Celtic people to the Christian religion.

Patrick arrived in Ireland and became a missionary, travelling from village to village and talking about his faith. Once, several members of a tribe approached Patrick and told him that they found it difficult to understand and believe in the Holy Trinity. Patrick thought a moment, then stooped down and picked one of the plentiful shamrocks growing wild around Ireland. Stories of Saint Patrick, for by then he was a saint, reached far and wide. His most famous feat is forcing the snakes out of the entire country of Ireland. Even though there are many different stories about how he accomplished such a task, it is probably not true.

St Patrick died on March 17 and the Irish people set aside the day to mourn. He became the patron saint of Ireland. Mourning turned to commemorating him and celebrating his life. Americans have inherited this custom. On St Patrick's Day in the United States, millions of people celebrate whether they are Irish or not!

Hockey will be starting the playoffs very soon. Penguins at this point look like they could win the cup. A few of the other teams that look like they will be in the playoffs.

- Boston
- Black Hawks
- Mighty Ducks

Looking forward to see who wins.

## Palm Sunday

Contributed by  
Kate Manners

The Sunday before Easter celebrates Christ coming to Jerusalem on a donkey. It's a holy holiday on a Christian calendar which some churches celebrate. Sometimes there's a procession of children waiving palm branches in the church. The minister talks about Christ's resurrection. The congregation receives palm branches to wave. There is an abundance of flowers all around the church. All of the separate congregations gather together for one combined service. Then everyone goes home and waits for Easter.

I was cheering for the Seahawks. Bruno Mars and the Red Hot Chili Peppers sang for the half time show. The Broncos lost big time. They had to go home to their hometown when they lost. I was disappointed in the score.

I'll watch it again next year. I hope my team, the Eagles make it.

The Seahawks have won eight division titles and appeared in two Super Bowls, winning the championship in their second appearance [Super Bowl XLVIII](#)

Seattle is the only team to have played in both the **AFC** and **NFC** Championship Games, having relocated from the AFC to the NFC during league realignment prior to the 2002 season.

## Why I am Me!

Dan Rogusky

Wherever I go, whatever I do, whomever I'm with, I always feel like I'm being judged. What can I do to be seen as more normal?

The first thing you must do is be comfortable with who you are, where you're at in life and who you've become as a person. The less you worry about what other people think and or feel, the better you'll be. The only person you have to please is yourself and your family.

## Guest Speaker

Contributed By  
Ernie McClain

Last month we had a guest speaker named Micah Bias who taught us about capoeira. It is a combination of music, Brazilian culture, dance and martial arts. I thought the music was soothing and relaxing. Micah had us clap along and try to sing while he danced. We all thought it was very entertaining. I hope to see him again.

## MARBLE CRAFT

After getting loosened up with some exercise we had the chance to try our hand at a fun art project. Our guest speakers poured a small amount of water in a pan and added some oil and two colors of paint. We gently placed small sheets of water color paper into the pan and swirled the liquid over the paper to cover it. When we took the paper out, there was a beautiful, swirled design left from the areas saturated with the oil infused paint. It was fun to see the different designs. Micah Bias has been training in the ancient Brazilian martial art of Capoeira for 5 years. Micah has also been working in a direct care and supervisory capacity for individuals with IDD since 2008 giving him unique background and training to offer Special Needs Capoeira classes at 341 East Liberty Street.
